

## Linvest – Special Set Dyestuffs for Wool, Polyamide & Silk

This special range of dyes are suitable for dyeing and printing wool, polyamide or silk with a high fastness standard.

The range is unlike any other: these are special shades, deep and richly resonant, sophisticated, "European" tones.

They are a unique range of mixed dyes made up of 1:2 metal complex and reactive dyes.

They boast extremely high wash fastness and good to excellent light fastness.

With the similar dyeing properties, they offer limitless color combinations.
